

KTS IS THE TRUSTED GO-TO PARTNER FOR LEADING ORGANIZATIONS

For over 35 years, leading organizations in the Greater Boston area have counted on KTS for ensuring their communications infrastructure is scalable, reliable and secure. As cabling and wiring experts, we have built on our core expertise to include wireless networks, security solutions and state-of-the-art audio visual systems. We enable productivity and safety by solving poor cellular reception at work.

WHY KTS?

PROVEN. Leading organizations and institutions throughout the Greater Boston area have counted on KTS for over 35 years for our expertise and consultative approach that saves our clients time and money while delivering scalable, reliable solutions.

RELIABLE. We forge partnerships with our clients so you can count on us to do what we say when we say we will.

QUALITY. Professionals providing superior customer service and quality workmanship. Work done on time with no trace left behind.

HIGHLY TRAINED PROFESSIONALS. BICSI-certified RCDD (Registered Communications Distribution Designers) and BICSI-certified technicians

BEST-IN-CLASS TECHNOLOGIES. We partner with the best-in-class technologies.

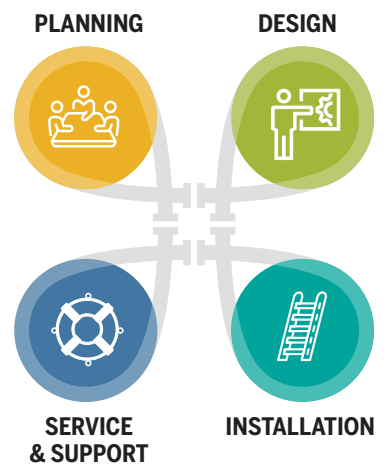

Get KTS involved early to save time and money.

We specialize in fixing physical disconnects. However, our clients commonly rely on KTS for more than the connections within their walls and buildings. They engage KTS to solve the common communications disconnect between the C-suite, IT and end users.

Department moves, expansions and building reconfigurations can strain your structured cabling system. Is anyone at the planning table to account for the implications to the communications infrastructure? This disconnect can be frustrating and very costly.

With KTS involved, we act as our client's planning advocate to help avoid project delays and cost overruns due to inadequate planning.

FULL LIFECYCLE PARTNER

Our clients receive the most benefit when KTS is involved from the planning stage through installation and service.

We **connect** the disconnect.

Below is an overview of our service offerings. As experts in cabling and wiring, we have built on that expertise to solve related challenges that integrate into the communications infrastructure in addition to establishing new, separate networks.

Planning

It starts with proper planning. With KTS involved early with a seat at the planning table, our clients save time and money.

Communications Infrastructure

We are cabling and wiring experts. Count on KTS for a communications infrastructure that is secure, scalable and reliable.

Cellular Reception

Poor cell reception is unacceptable. KTS solves cellular coverage issues, eliminating frustration and boosting productivity.

Wireless Networks

From office buildings to college or hospital campuses, today wireless connectivity is expected. KTS designs, installs and services reliable wireless networks designed to scale.

Audio Visual Systems

Our clients turn to KTS for state-of-the-art A/V systems to enhance learning environments, patient care and employee experiences.

Security Solutions

KTS offers comprehensive security solutions to protect people, assets and campus environments.

Market Segments We Serve:

We have the proven track record and reputation to serve clients in a wide variety of sectors while building a strength in the healthcare and education sectors. Our clients have partnered with us for decades, relying on our team for short-term needs and long-term planning.

EDUCATION

Technology is indelibly transforming classrooms and campuses. The area's finest educational institutions turn to us for advice on emerging technologies as we operate as a natural extension of their IT team. Priorities in this sector that our clients rely on us for include: installing and maintaining solutions optimizing the communications network, offering a safe and secure campus and creating innovative, tech-enabled learning environments.

HEALTHCARE

New buildings, renovations and equipment upgrades all affect the communications infrastructure of healthcare organizations. Our clients, facility and IT managers, rely on us to ensure the network infrastructure can support such initiatives and scale for future demands. With KTS involved early, crises are averted and budget, timelines and project goals are met.
